Computer software for training data models using machine learning and deep learning processes; software for using trained data models to determine and predict patterns in data; computer software for integrating trained data models with server, cloud and data infrastructure; computer software for monitoring and evaluating the performance and impact of trained data models; Computer software for ensuring the security of social networks and content platforms using machine learning and deep learning algorithms; Computer software for detecting spam, abusive content, misinformation and disinformation online, on social networks and on content platforms using machine learning and deep learning algorithms; Computer software for detecting network manipulation and malicious behaviour online, on social networks and on content platforms using machine learning and deep learning algorithms; Computer software for improving the health of conversations online, on social networks and on content platforms using machine learning and deep learning algorithms; Computer software for monitoring, moderating, stopping and removing spam, abusive content, misinformation and disinformation online, on social networks and on content platforms using machine learning and deep learning algorithms; Computer software for notifying others of spam, abusive content, misinformation and disinformation online, on social networks and on content platforms using machine learning and deep learning algorithms; Computer software for analyzing the spread of spam, abusive content, misinformation and disinformation online, on social networks and on content platforms using machine learning and deep learning algorithms; Computer software for detecting differences how content spreads online, on social networks and on content platforms using machine learning and deep learning algorithms; Computer software for analyzing and scoring the authenticity and credibility of user-generated content using machine learning and deep learning algorithms; Data processing software; Database management software; Software for accessing, browsing and searching online databases; Computer software for data query and data analysis; computer software for data mining; computer software for determining and predicting patterns in data; computer software for statistical modeling; computer software for time series modeling; computer software for information and data integration, analysis, and management; Computer software for analyzing and extracting trends, relationships, and patterns in structured and unstructured data using artificial intelligence, machine learning, deep learning, and pattern recognition; Computer software for collecting, manipulating, analyzing, managing, storing, searching, processing, sharing, and interacting with large data sets; computer software for collecting and analyzing data from software, content platforms, and mobile applications; computer software for sharing data, creating data visualizations, data processing and data analyzing; Software for connecting computers to one another and enabling activities via the internet; Software for managing existing systems, software and processes in an information environment; Software for administration of computer networks, management of computer applications and computer hardware, and computer application distribution; Computer software development tools; Computer software used to enhance the capabilities and features of other software, mobile applications, platforms, and non-downloadable online software; computer software for optimizing and de-bugging software; computer software for developing, deploying, updating and monitoring the performance of artificial intelligence, machine learning and deep learning applications; Computer hardware; Computer hardware for machine learning and deep learning; Computer software for controlling, programming and communicating with machine learning and deep learning enabled computer hardware; Computer software libraries; computer systems; computer software systems; Computer software for use as an application programming interface (API); Computer software for use as an application programming interface (API) for use in the fields of artificial intelligence, machine learning, deep learning, graph deep learning, and geometric deep learning; Application programming interface (API) for use in building software applications; application programming interface (API) software
for enabling the sharing of computer programming code with other computer software; application programming interface (API) for third-party software; application programming interface (API) software for data retrieval, upload, download, access and management.
